

Lawlers Gold Mine: Location of Operations

3

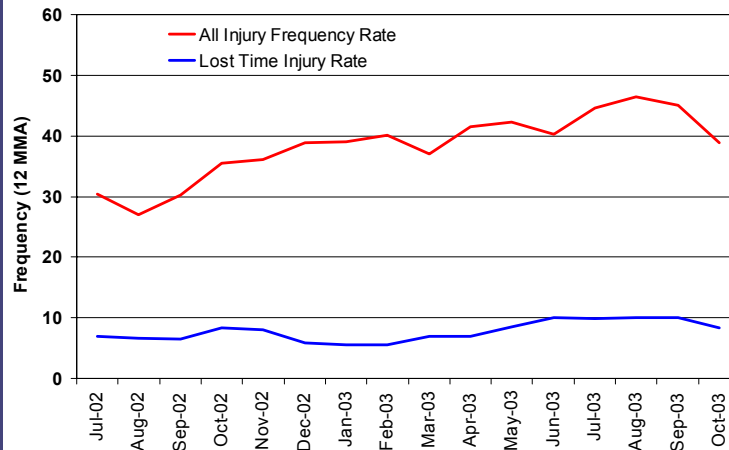

Lawlers Gold Mine: Historical Notes

- 1894 Discovery by Paddy Lawlers
- 1984 Commencement of Tailings treatment
- 1986 Commencement of Open pit mining
- 1997 Construction of U/G exploration decline at New Holland
- 1998 Homestake Mining acquires Plutonic Resources
- 1998 Commencement of U/G operations at New Holland
- 2000 Installation of new gravity plant
- 2003 Transition to Owner Mining and Crusher Upgrade

4

Lawlers Gold Mine: Safety

5

Lawlers Mine: Geology

- Gold derived from sedimentary and mafic/ultramafic domains
- Gold contained in stacked shallow dipping quartz veins within coarse sandstone units
- Vein thickness varies between 2 and 15 metres (6 and 50 feet)

6

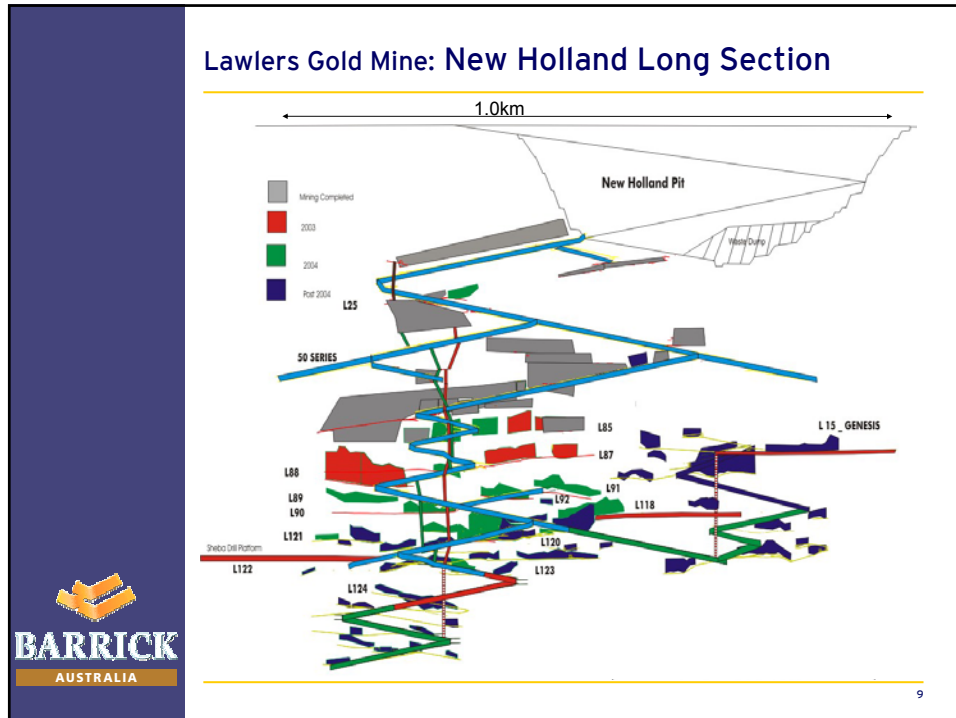

Lawlers Gold Mine: Glasgow Lass Trend

Lawlers Gold Mine: Mining and Processing

- Underground access by declines from New Holland and Genesis Pits
- Predominantly long hole open stoping
- Some room & pillar and airleg stoping
- 750,000 tonne/year gravity and CIL processing plant
- +/- 70% gold recovery from gravity plant

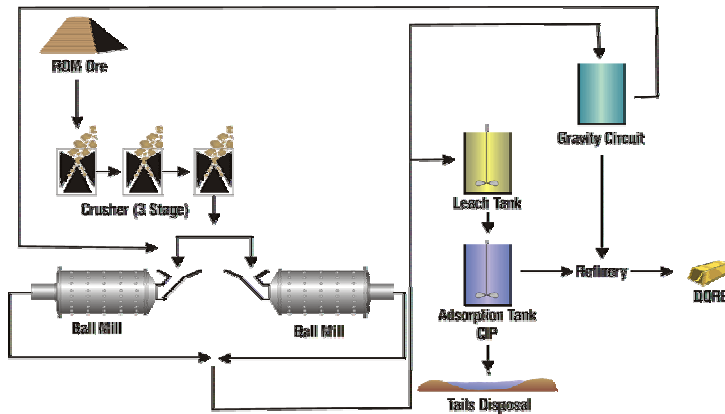

Lawlers Gold Mine: Long hole open stoping

- Initial drive along strike
- 64mm blast holes and airleg slot
- Average stope size 30,000 tonnes
- Conventional remote control loaders
- Ore trucked 4km to the surface

Lawlers Gold Mine: Ore Processing

11

Lawlers Gold Mine: Production/Cost Summary

12

Lawlers Gold Mine: Operating Costs

A\$/ton	3 rd Quarter 2003	2003 YTD
Cost per ton mined		
Open Pit	N/a	4.76
Underground	27.6	29.71
Cost per ton milled		
Mining	31.28	30.06
Milling	14.84	14.28
G&A	9.42	9.51
Total	55.54	53.85

13

Lawlers Gold Mine: Operating Parameters

	Units	1999	2000	2001	2002	2003 E
Tonnage Milled	Ton '000s	669	729	775	718	804
Head Grade	oz/ton	0.166	0.145	0.141	0.162	0.126
Recovery	%	94.9	95.9	95.2	97.3	96.40
Gold Production	oz '000s	104	101	104	113	98

14

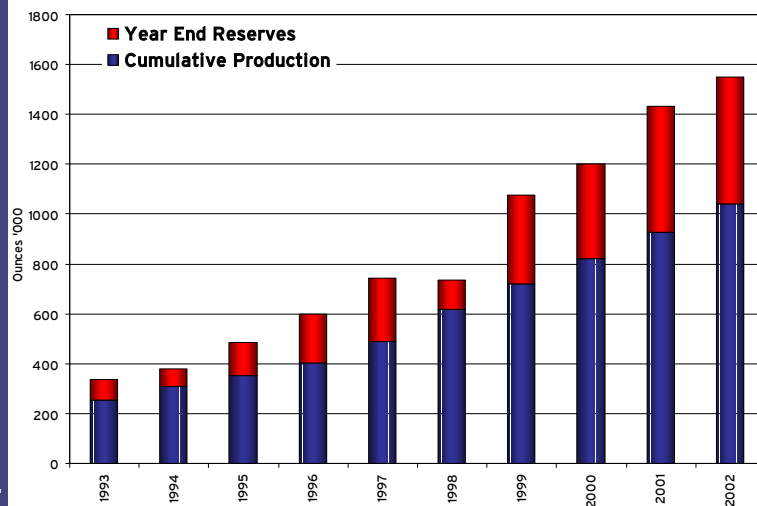

Lawlers Gold Mine: Environmental Achievements

- Golden Gecko Award for Environmental Excellence (landfill management system)
- Commissioning of new in pit tails facilities in Great Eastern and Lawlers East Pits
- Closing and Rehabilitation of in pit Tails facilities in Caroline and HP pits
- Golden Gecko merit award for research into arsenic uptake by plants

15

Lawlers Gold Mine: Reserves and Production

16

Lawlers Gold Mine: Reserves/Resources 31st Dec 2002

	ton	Grade oz/ton	Contained oz
Reserves	3,407,000	0.149	509,000
Resources*	10,705,000	0.131	1,401,000
*excludes reserves			

17

Lawlers Gold Mine: Future Plans

- Increase mill throughput
- Improve understanding of complex ore zones (100 series)
- Explore for new resources to the south of the main orebody
- Modify mining methods to optimise grade
- Continuous Improvement Program

Cautionary Statement

FORWARD LOOKING STATEMENT

Certain statements included herein, including those regarding production and costs and other statements that express management's expectations or estimates of our future performance, constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995. The words "believe", "expect", "anticipate", "contemplate", "target", "plan", "intends", "continue", "budget", "estimate", "may", "will", "schedule", and similar expressions identify forward-looking statements. Forward-looking statements are necessarily based upon a number of estimates and assumptions that, while considered reasonable by management are inherently subject to significant business, economic and competitive uncertainties and contingencies. We caution you that such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual financial results, performance or achievements of Barrick to be materially different from our estimated future results, performance or achievements expressed or implied by those forward-looking statements and our forward-looking statements are not guarantees of future performance. These risks, uncertainties and other factors include, but are not limited to: changes in the worldwide price of gold or certain other commodities (such as silver, copper, diesel fuel and electricity) and currencies; changes in interest rates or gold lease rates that could impact realized prices under our forward sales program; legislative, political or economic developments in the jurisdictions in which Barrick carries on business; operating or technical difficulties in connection with mining or development activities; the speculative nature of gold exploration and development, including the risks of diminishing quantities or grades of reserves; and the risks involved in the exploration, development and mining business. These factors are discussed in greater detail in Barrick's most recent Form 40-F/Annual Information on file with the U.S. Securities and Exchange Commission and Canadian provincial securities regulatory authorities.

Barrick expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, events or otherwise.
